PIEZAS Y ACCESORIOS DE EQUIPOS PARAMEDICOS

PARALELAS PARA EJECUTAR LA MARCHA.

Su confección es a partir de hierro y madera, se emplea en la realización de los ejercicios para los miembros inferiores tren de marcha, cuclillas, ejercicios de equilibrio, etcétera.

Autor: Téc. Ciro Alberto Rodríguez.
San José de las Lajas, provincia La Habana.

EQUIPO MANUAL PARA LA TRACCIÓN CERVICAL.

Fabricar la barra de tracción utilizando un angular y en su parte horizontal de 60 cm de largo soldar 2 rondanas. Después, atar a uno de los extremos de la cuerda que pasa por ambas la Fronda de Glisón y en el otro el peso, para la tracción según el peso corporal del paciente. La Fronda de Glisón es construida con materiales de recortería.

Autores: Rafael Giménez, Amado Domínguez y Félix Giménez.

Urbano Noris, Holguín.

ACOPLE DEL FUSIL ΔK AL SISTEMA DE TIRO N-2
 FUSIL ΔK.

DESPLASMATIZADOR.

Aprovechar una unidad de refrigerador defectuosa, que logre el vacío suficiente, para la ex-

tracción del plasma procedente de un frasco de sangre total, mediante la utilización de un frasco receptor, un frasco generador de vacío y 2 equipos extractores de sangre.

Autores: Dr. Orestes Casañola
Romeo,
Lic. Delfina Martínez
Cisneros.

Jagüey Grande, Matanzas.

IN CONCLUSION...

EXECUTION STUFF

CA GLUE

3

BAKING SODA

This is not a fast process.

When building with imprecise
and/or unknown final measurements,
don't be greedy with the material.

Don't forget about structure.

Fail.

Fail.

A LOT.

WHY "MACGYVER" STUFF?

Improved critical
thinking skills

Practical engineering XP++

PARTING CHALLENGE:

NEVER

STOP

BUILDING

STUFF

Your quirky, offbeat,
“too much time on your hands”
side project doesn't have
to measure up to anything...

You don't have to
change the world to
establish a precedent.

...it just has to be done.

NO ONE CAN UNDO THAT.

THANKS!

@evanbooth
